

SHEET 1

Project Discovery

A real problem, honest terms, protected data

OPEN RESEARCH PROJECT · POSTED 5 OCT 2026

Low-cost detection of diabetic retinopathy from fundus images on edge devices

FUNDED

AR Dr. Anjali Rao · NetraVision Labs · ✓ Verified sponsor

PROBLEM STATEMENT

Diabetic retinopathy causes preventable blindness, but rural clinics can't afford specialist screening. We need a model that flags at-risk patients from a fundus photo on a low-cost phone or edge device, offline, with accuracy close to a specialist.

REQUIRED SKILLS

- CNN
- Medical imaging
- TensorFlow Lite
- Model quantisation
- Dataset curation

BUDGET / REWARD

₹1,00,000

Milestone 1 · held in escrow before work

TIMELINE

6 weeks

5 Oct – 16 Nov 2026 · ~10 h/week

Public summary

Visible to everyone

- Goal: screening model under 10 MB that runs offline
- Data: de-identified retinal images (provided after joining)
- Deliverables: dataset pipeline, baseline model, accuracy report
- Team: 1 expert + 3 students
- Outcome: payment + co-authorship on any paper

Confidential brief

Locked

Partner Hospital ████████ Eye Institute, Bangalore
Dataset: 1,000 de-identified fundus images, graded 0-4 by two ophthalmologists. Target: > 90% sensitivity at grade 2+.
Device: ████████ edge device, 2 GB RAM. Clinical pilot planned Q1 2027 with ████████ clinic.

PN Priya · 0.5	₹7,933	₹17,850	₹25,783	Paid
AM Arjun · 0.3	₹7,933	₹10,710	₹18,643	Paid
MI Meera · 0.2	₹7,933	₹7,140	₹15,074	Paid
Total			₹85,000 ✓	

Rounded to whole rupees so shares add up exactly. Sponsor sees all rows; each member sees their own.

Non-monetary project (knowledge-sharing)

"Literature review: low-cost DR screening". Same engine, ₹0 budget → certificates, co-author credit and expert recommendation. No payment shown or implied.

Arjun's receipt

Explained

₹18,643

① Charter v1, clause 4: student pool = ₹59,500

② Equal part: $40\% \times 59,500 \div 3 = ₹7,933$

③ Weighted part: $60\% \times 59,500 \times 0.3 = ₹10,710$

④ Weight 0.3 = impact 3 of 10, from ledger #07, reviewed by Kiran

⑤ AI share 70% disclosed. Credit stays with Arjun as owner; agent cost ₹42 paid from the AI reserve
